

Article Overview

Galvanised and open-type cable trays are generally the most cost-effective options in Afghanistan, offering durability and affordability.

Price Considerations

Cable tray prices in Afghanistan vary depending on material, type, and supplier. Galvanised steel trays are widely regarded as affordable and durable, requiring minimal maintenance and offering long-term cost savings due to their longevity and ease of installation . Open-type cable trays are also cost-effective, especially for industrial and commercial applications, and their prices are influenced by material quality, demand, and competition . Stainless steel trays tend to be more expensive but provide higher corrosion resistance for specialized environments.

Recommended Suppliers

- o Jeetmull Jaichandlall: Recognized as a top manufacturer and supplier of galvanised cable trays in Afghanistan, offering competitive pricing and global service .
- o Brilltech Engineers: Known for providing cable trays at affordable prices with options for standard and customized specifications .
- o Agilon Cables India Pvt. Ltd.: Supplies bulk cable trays with high resistance to mechanical stress, suitable for industrial applications .

Tips for Choosing the Best Price

- o Compare bulk pricing: Buying in larger quantities often reduces the per-meter cost.
- o Consider material vs. lifespan: Galvanised trays are cheaper upfront and durable, while stainless steel may be costlier but better for corrosive environments.
- o Check supplier reliability: Verified suppliers with positive reviews ensure quality and timely delivery.
- o Customization needs: If your project requires specific dimensions or load capacities, factor in customization costs. In summary, for most projects in Afghanistan, galvanised steel or open-type cable trays from reputable suppliers provide the best balance of price, durability, and ease of installation .

The Cable Tray market was valued at \$8.2 billion in 2025 and is projected to reach \$13.7 billion by 2034, growing at 6.5% CAGR.
