

Article Overview

Croatian cable trough and tray systems include perforated, ladder, and solid trough models from manufacturers like ERVOJIC D.O.O., Metalis d.o.o., and HAURATON, offering versatile solutions for industrial and commercial applications.

ERVOJIC D.O.O. Cable Trays

ERVOJIC offers perforated cable trays, cable channels, and ladder trays suitable for electric power, signal, control, instrumentation, and communication cables in industrial facilities, hospitals, airports, tunnels, and bridges . Key specifications include:

- o Widths: 50, 100, 200, 300, 400 mm (custom up to 600 mm)
- o Lengths: 2000, 2500 mm (custom up to 3000 mm)
- o Materials: Quality zinc-coated steel, with optional hot zinc plating (40-570 g/m²) or plastification (80-100 µm protective layer) for chemical and food industry applications
- o Features: Economical, safe, and customizable for various load and environmental requirements

Metalis d.o.o. Perforated Cable Trays

Metalis, based in Donja Stubica, Croatia, specializes in perforated cable trays and connectors . While specific dimensions are not listed in the source, Metalis provides solutions for structured cable management in industrial and commercial projects, emphasizing durability and compliance with local standards.

HAURATON Cable Trough Systems

HAURATON provides solid cable troughs designed for safe and secure routing of electrical cables, pipes, and utilities . Features include:

- o Materials: Fibre-reinforced concrete or 100% recycled composite
- o Covers: Solid non-slip ductile iron with pre-fitted removable steel caps for flexible cable entry
- o Locking System: Patented boltless mechanism for quick cover removal and re-fitting
- o Sizes: Various widths and depths to accommodate different loadings and project requirements
- o Applications: Sports stadiums, warehouses, airports, container terminals, and railway projects

Summary

Croatian cable tray and trough models provide a range of options for different installation needs:

Croatian Trough Cable Tray

- o Perforated trays (ERVOJIC, Metalis) for ventilation and lightweight cable support
- o Ladder trays (ERVOJIC) for heavy-duty cable runs
- o Solid troughs (HAURATON) for floor-laid, high-protection installations These systems are designed to meet industrial, commercial, and specialized applications, with customizable dimensions, protective coatings, and easy installation features to ensure safety and durability.
