

Article Overview

The FOB price for a 1G single fiber bidirectional (BiDi) SFP module in Cote d'Ivoire depends on the supplier, but typical generic modules range from \$20 to \$50 per unit, excluding shipping and import duties.

Product Overview

1G BiDi SFP modules are designed for single-fiber bidirectional connectivity using WDM technology. A common model, the Generic SFP-1G-BX-D, integrates a 1550nm DFB transmitter and 1310nm PIN receiver into a simplex LC interface, supporting 10-20 km link distances over single-mode fiber . Compared to standard SFPs, BiDi modules reduce fiber cabling requirements by half, lowering infrastructure costs and simplifying installation . Ubiquiti UFiber modules are also available for multimode fiber with shorter distances (up to 550 meters) and LC connectors .

FOB Pricing Guidance

- o Generic SFP-1G-BX-D: Estimated \$20-\$50 per module depending on quantity, supplier, and brand.
- o Ubiquiti UFiber SFP 1G: Typically \$40-\$60 per pair for multimode modules .
- o Prices are FOB (Free on Board) at the supplier's port, meaning shipping, insurance, and import duties are additional.

Import Considerations for Cote d'Ivoire

- o Cote d'Ivoire applies the ECOWAS/WAEMU Common External Tariff (CET). Electronics and intermediate goods are generally taxed at 10% import duty, plus a 1% statistical tax and 18% VAT on the CIF value plus duties .
- o Additional levies or minimum import prices may apply depending on the product classification .
- o Using the Single Window for Foreign Trade (GUCE), importers can check the HS code for SFP modules and calculate total landed costs .

Recommendations

- o Contact local distributors or authorized resellers in Cote d'Ivoire for exact FOB quotes.
- o Verify compatibility with existing network equipment before purchase.
- o Consider bulk orders to reduce per-unit FOB costs and shipping fees.
- o Factor in import duties, VAT, and other levies to estimate total landed cost accurately. By combining supplier quotes with Cote d'Ivoire's import tariffs, you can determine the final cost per 1G BiDi SFP module for procurement or project planning.

Côte d'Ivoire FOB Price Single Fiber Bidirectional 1G

The Ubiquiti UACC-OM-SM-1G-S-2 1 Gbps Bidirectional Single-Mode Optical Module is a cutting-edge SFP transceiver that supports 1G connections up to 3 km using single-mode fiber with a simplex LC UPC connector.
