

Article Overview

Optical cable pressure sensors in Eastern Europe typically range from EUR150 to over EUR1,000 per unit, depending on specifications, brand, and quantity.

Price Overview

- o Entry-level sensors for basic applications can start around EUR150-EUR300 per unit, often available through online marketplaces like eBay, which offers free shipping on many items and a variety of brands .
- o Industrial-grade or high-precision sensors with features such as $\pm 0.25\%$ accuracy, DIN rail mounting, or digital outputs can cost EUR500-EUR1,000+ per unit, as listed by European distributors and specialized suppliers .
- o Fiber optic cables used with these sensors are sold separately, with prices depending on length, core type, and manufacturer. Authorized distributors like Mouser Europe provide unit pricing in EUR, which varies by quantity and specifications .

Suppliers and Availability

- o Mouser Europe: Offers a wide selection of fiber optic cables compatible with pressure sensors, including datasheets and inventory for immediate purchase .
- o Optics11 and other European suppliers: Provide high-performance fiber optic sensing systems suitable for structural health monitoring, energy, and industrial applications. They supply to Eastern Europe and offer technical support for integration .
- o eBay: Provides a marketplace for both new and refurbished optical pressure sensors, often at competitive prices with shipping options to Eastern Europe .
- o IndustryStock: Lists 55 suppliers across Germany, Netherlands, Switzerland, China, and Bulgaria, offering sensor cables, spare parts, and maintenance services .

Factors Affecting Price

- o Sensor accuracy and range: Higher precision and wider measurement ranges increase cost.
- o Cable type and length: Single-mode vs. multi-mode fiber, and longer cables, raise the price.
- o Certifications and environmental ratings: NEMA or IP-rated housings for industrial use add to cost.
- o Quantity purchased: Bulk orders often reduce per-unit cost. For a precise quote, it is recommended to contact regional distributors or suppliers directly, specifying the required sensor type, accuracy, and cable length. This ensures the price reflects current market conditions and shipping to Eastern Europe.
