

Article Overview

Leading European cable tray manufacturers include DKC Europe, Niedax Group, Spina Group, Ebo Systems, Eurotray, and Eurostrut, offering a wide range of metal, ladder, perforated, and GRP cable trays for industrial and infrastructure projects.

Key Manufacturers and Their Offerings

DKC Europe is a prominent supplier of cable tray systems and energy distribution solutions for civil and industrial infrastructures, providing a comprehensive range of trays, ladders, and accessories designed for durability and compliance with European standards . Niedax Group, headquartered in Germany, offers over 50,000 products including cable trays, ladders, and support systems. Their solutions are tailored for industrial, commercial, and infrastructure projects, emphasizing quality, safety, and long-term reliability . Spina Group from Italy specializes in standard and custom cable tray systems, including ladder and perforated trays. Their products comply with UNI EN 61537 and NEMA VE1 standards, making them suitable for shipbuilding, industrial plants, and high-demand infrastructure projects . Ebo Systems focuses on GRP (Glass-fiber Reinforced Polyester) cable trays, ideal for extreme environments requiring high corrosion resistance, thermal stability, and mechanical strength. Their products are widely used in energy, water treatment, chemical, and heavy industries . Eurotray, part of the Cemesan Group, provides durable and adaptable cable trays, ladders, and wire mesh trays for large-scale installations. They offer solutions for vertical applications, raised floors, and heavy cable loads, with options in galvanized, aluminum, and coated finishes . Eurostrut supplies hot-dip galvanized and stainless steel cable trays suitable for indoor, outdoor, industrial, and marine applications. Their trays are designed for fast installation, flexible configurations, and safe cable management, including perforated and NATO-type models .

Considerations for Wholesale Procurement

- o Compliance: Ensure the manufacturer adheres to European standards such as EN and IEC for safety and durability.
- o Material Options: Choose between metal, aluminum, or GRP trays depending on environmental conditions and load requirements.
- o Customization: Many manufacturers offer custom sizes, ladder or perforated designs, and accessories for specific industrial or infrastructure needs.
- o Distribution: Verify the manufacturer's ability to supply across Europe and provide technical support for large-scale projects. These manufacturers represent reliable options for sourcing high-quality cable tray systems in Europe, suitable for a wide range of industrial, commercial, and infrastructure applications.

Galvanized Cable Tray As part of our excellent Cable Tray Range, we are proud to offer super strong Galvanized Cable Trays.

We work closely with Electrical Wholesalers & Distributors across Europe, supplying cables to the wider electrical installation industry.

Our expertise lies in the manufacturing and distribution of cable pull shafts. In addition, we supply shaft covers and shaft ladders.

Since its introduction, wire cable tray has proven to be the ideal choice for cable management in virtually any type of installation. First

Trayco is specialised in producing and optimising 100% Belgian cable trays, mesh trays, cable ladders, mounting and
