

High-density 1U cable management rack high temperature resistant in stock

Article Overview

Several 1U high-density cable management racks are available with metal construction and fire-resistant components, suitable for high-temperature environments.

Recommended Options

- o QSFPTEK 1U Horizontal D-Ring Cable Manager
 - o Material: Durable metal, resistant to rust and corrosion
 - o Capacity: Can accommodate up to 83 round 24AWG Cat6 cables in 1U space
 - o Design: 5 rounded D-rings for flexible cable routing, protecting cable jackets from wear
 - o Compatibility: Fits standard 19-inch racks, cabinets, and structured cabling closets
 - o Installation: Pre-assembled, easy to mount in under a minute
 - o High-Density Use: Ideal for copper, fiber optic, and coax cables in dense setups

- o FastLinkcabsys 1U 19" Cable Management Panel
 - o Material: Metal bracket with liquid coating for rust prevention; fire-resistant polycarbonate (PC) components meet UL-94V-0 standards
 - o Design: 5 D-rings, hinged front cover, 4 pass-through holes for front-to-back routing
 - o Depth Options: 70mm (7cm) and 90mm (9cm) to fit various rack environments
 - o Compliance: RoHS and REACH certified, environmentally safe
 - o High-Temperature Resistance: Fire-resistant components suitable for high-density, high-heat racks

- o Tripp Lite SRCABLEDUCT1UHD Horizontal Cable Manager
 - o Material: Heavy-duty cold-rolled steel
 - o Design: Finger duct with dual-hinge cover for airflow and cable protection
 - o Form Factor: 1U, fits any standard rack or enclosure
 - o Durability: Designed for high-density IT applications, reduces cable stress and disconnections
 - o Compliance: RoHS-compliant, 5-year warranty
 - o High-Temperature Suitability: Steel construction withstands heat in server environments

- o StarTech.com CMBRUSH1U Brush Strip Cable Manager
 - o Material: High-quality steel with high-density nylon bristles
 - o Function: Organizes cables while keeping dust out, promotes proper airflow
 - o Installation: Includes rack screws for 2 or 4-post racks
 - o High-Density Use: Suitable for dense cabling setups, TAA compliant
 - o Temperature Resistance: Steel construction tolerates elevated temperatures in racks

Key Considerations

High-density 1U cable management rack high temperature resistant in stock

- o Material: Metal or fire-resistant polycarbonate ensures durability and high-temperature tolerance.
- o Cable Protection: Rounded D-rings or brush strips prevent cable damage and maintain bend radius.
- o Compliance: Look for UL-94V-0, RoHS, and REACH certifications for safety and environmental standards.
- o Installation: Pre-assembled panels or hinged covers simplify mounting and cable routing.
- o Rack Compatibility: Ensure 1U, 19-inch standard fit for your server or network cabinet. These options are currently in stock and suitable for high-density, high-temperature environments, providing reliable cable management for IT and network infrastructure.

Optimize your data center with Weunion's high-performance server racks and network

The horizontal cable management was designed to be used with any patch panels, rack and cabinet mount products. It mounts on

Buy now, ships today. 00404169 - Rack Cable Manager from NavePoint. View datasheets, pricing and availability from DigiKey now!

Cabinet, Enclosure & Open Frame Rack Systems Our vast selection of cabinets, thermal management,

Rack Mount Blank Enclosure provides multiple choices for your application by being separated into patch panel, plastic D-rings, lacer

This horizontal cable manager is specially pre-assembled with 5

RackSolutions" Cable Management Tray is designed for managing large bundles of cables. At some point in the cable routing

Browse cable management brush panels for standard 19-inch racks. Create a professional, organized setup while enhancing airflow

Constructed of high-quality steel with high-density nylon bristles, the 1U brush plate creates a clean looking point of entry and offers

Discover 1U cable management with patch panels, cable managers, and brush panels. Streamline server racks and

The CMR-1RU-24 Horizontal Cable Management Rail is compatible with all 19-inch racks. They are designed with 24 slots and used

High-density 1U cable management rack high temperature resistant in stock

Buy 1U 19" metal horizontal cable manager with end rings manager for high density fibre termination. Order online today.

2 Pack- Metal 1U 19 Inch Cable Manager 12 Big Slots Horizontal Rack Mount Wire Organizer Cable Management System with Cover

Organize and manage network, server and KVM cabling in your server rack. The CABLMANAGER2 1U Cable Management Panel

Fiberdyne Labs FTP-1UH-3P has been designed to support High-density fiber environments; including Data Centers, Cell Tower

This 1U rack cable manager has a removable cover that allows users to separate and route cables easily
