

How much does a Croatian 4C aluminum alloy cable tray cost

Article Overview

Aluminum cable trays in Croatia typically cost between \$20 and \$50 per meter, depending on type, size, and finish.

Aluminum cable trays, including 4C alloy types, are generally more expensive than steel trays due to their lightweight, corrosion-resistant properties and high durability, making them suitable for both indoor and outdoor applications . The price per meter can vary based on several factors: 1. Material and Alloy Grade: Higher-grade aluminum alloys like 4C offer better strength and corrosion resistance, which can increase the cost compared to standard aluminum trays . 2. Tray Type: Ladder trays, perforated trays, and solid-bottom trays differ in price. Ladder trays, which support heavier cables, are usually at the higher end of the range, while perforated trays may be slightly cheaper . 3. Size and Dimensions: Standard widths range from 50 mm to 400 mm, with lengths of 2-2.5 meters. Larger or custom-sized trays require more material, increasing the cost . 4. Surface Finish and Coating: Anodized or powder-coated trays provide extra corrosion protection, especially in harsh environments, and can add to the price . 5. Quantity and Bulk Orders: Purchasing in bulk can reduce the per-meter cost by 20-40%, while small orders may be more expensive . 6. Installation and Accessories: Additional costs may include brackets, bends, and installation labor, which vary by project complexity and location . Estimated Price Range in Croatia: Based on regional market trends and aluminum tray pricing, a 4C aluminum alloy cable tray is likely to cost between \$20 and \$50 per meter, with bulk orders or standard sizes potentially lowering the price . For precise pricing, contacting local suppliers such as ERVOJIC D.O.O. or EAE Electric for a detailed quote is recommended . This estimate provides a practical guideline for budgeting, but final costs will depend on specific project requirements, tray dimensions, and supplier terms.

Discover the latest cable tray price per meter in 2026, including steel, wire mesh, and aluminum tray costs. Compare

Find reliable cable tray price lists from trusted suppliers. Shop high-quality, customized, and affordable options for your

The aluminum cable tray is a lightweight, durable, and cost-effective solution used for organizing and safely carrying electrical and
