

Italian 505nm Laser Diode Module

CNI Laser Quick View Zoom In ~ Spec's and Photo Product Description: 405nm, 200mW Laser Diode Module Overview: This module features integrated

Wide range wavelengths of 505nm, 515nm, 520nm, and 532nm green laser diode modules assure high brightness green laser light emission and highly clear green dot measurement for high tech and lab

405nm Violet Blue Purple Laser Dot Diode Module 13mm x 42mm with US AC Power Adapter Save 10% on 2 select item (s) Add to cart

These model FVL50580S laser diodes from Frankfurt Laser Company (FLC) are 505nm lasers with a single mode output up to 80mW. These devices are offered

Small, compact and reliable diode laser module with red 650nm @ 5mW. Adjustable collimator for customer specific focal length. Integrated diode driver

Opt lasers 5W 525nm Fiber Coupled Laser Diode Module is characterized by high optical power, fast speed, and flexibility in the cooling method choice.

RLTMDL-405 1-500 mW Violet Laser Diode Modul Violet diode laser module at 405nm is made features of ultra compact, long lifetime, low cost and easy operating, which is used in measurement,

Choose between diode lasers with powers up to 300 mW and tunable lasers. Perfect for interferometry, Raman spectroscopy and holography. Here are our selection of solid state 505 nm lasers.

505nm 50mW Green Dot Laser Module With Adjustable Focus Design 5V DC Power Supply This dot module uses OSRAM semiconductor laser diode, the... Displaying 1 to 4 (of 4 products)

405nm, 50mW Narrow Linewidth Laser Diode Home > Wavelengths 370nm-561nm > CNI Laser Quick View Zoom In ~ Spec's and Photo Product Description: 405nm, 50mW Laser Diode Module

From our vertically integrated laser diode manufacturing location in New Jersey, USA, we supply the pump diodes for all TRUMPF Group lasers including

505nm~510nm 30mW Coaxial Pigtailed Diode Laser with MMF | Green LD Module 500nm~505nm Fiber Coupled Laser Diode with 50um 60um 105um Multi-mode Fiber WSLP-505-030m-M Wavespectrum

505 nm laser diode module with 30 mW output and 105 µm fiber coupling, optimized for integration

Italian 505nm Laser Diode Module

with industrial laser diode and driver systems in OEM applications.

Unlike the middle wavelength of 532nm green DPSS laser, the creation of a 505nm green laser diode module applies advanced semiconductor

This laser module is permanently fiber-coupled to a single-mode polarization-maintaining fiber and provides a perfect beam with a polarization extinction ratio of more than 20 dB. By default, this type

The diode laser modules that output red, green and blue laser beam, as well as full-colour white-light laser beam (RGB laser diode modules), are used mainly in laser display projectors.
