

Middle East electrical distribution box assembly manufacturers

Article Overview

Key manufacturers and suppliers of electrical distribution boxes in the Middle East include Shug Electrical, Al Safeenah, Al Misbah Al Sehri, Al Taqwa Electric, and Coloria Group.

Leading Manufacturers and Suppliers

Shug Electrical operates across the USA, Middle East, and Africa, specializing in UL Listed and CE Certified distribution equipment from brands like Square D, ASCO, Schneider, Boltswitch, and Eaton. They provide project management, engineering, and electrician support for international construction and oil & gas projects . Al Safeenah in the UAE manufactures robust distribution boxes constructed from carbon steel, stainless steel, or thermoplastic. Their products feature IP65/IP66 weatherproof ratings, modular DIN-rail designs, and corrosion-resistant coatings, suitable for industrial plants, construction sites, telecommunications, commercial buildings, and renewable energy installations . Al Misbah Al Sehri Electricals Trading LLC in Dubai produces a wide range of switchgear and distribution boards, including main, sub-main, and final distribution boards, capacitor banks, motor control centers, and ATS panels. Their products are designed to meet standard quality requirements at competitive prices . Al Taqwa Electric supplies low-voltage electrical products and assemblies across the UAE and GCC. They offer switchgear manufacturing, GRP enclosures, control panels, and energy auditing services. Their solutions cater to commercial and industrial sectors, emphasizing safe and efficient power distribution . Coloria Group provides global distribution box solutions with fast delivery to Middle East markets, including Saudi Arabia. Their products are engineered for extreme temperatures, high humidity, and strict local regulations like SASO standards. They offer customized stainless steel enclosures, anti-microbial coatings, and rapid delivery for critical projects .

Key Considerations

- o **Certifications:** Look for UL Listed, CE Certified, and SASO-compliant products for safety and regulatory compliance.
- o **Material and Durability:** Options include carbon steel, stainless steel, thermoplastic, and GRP enclosures with weatherproof and corrosion-resistant treatments.
- o **Modularity:** DIN-rail mounting and modular designs facilitate easy installation and integration with MCBs, RCDs, and surge protectors.
- o **Regional Support:** Companies with local offices or agencies in the Middle East can provide faster delivery, technical support, and project-specific customization. These manufacturers collectively cover a wide range of applications, from residential and commercial buildings to industrial plants and renewable energy projects, ensuring reliable and compliant electrical distribution solutions in the Middle East.
