

Article Overview

IP65-rated network racks in Norway are available from suppliers like Schneider Electric, Networks Centre, RS Online, and Mouser Norway, with pricing dependent on size, configuration, and quantity.

Supplier Options

1. Schneider Electric Norway Schneider Electric offers a wide range of network racks and enclosures suitable for industrial and commercial environments, including IP-rated cabinets for dust and water protection. Their APC NetShelter and Easy Series racks are designed for high-density IT applications, integrated power distribution, and environmental monitoring, suitable for IP65 requirements. You can request a quote directly through their Norwegian website for specific models and configurations . 2. Networks Centre Norway Networks Centre provides server and network cabinets, including IP-rated enclosures, along with accessories like PDUs, cable management, and environmental sensors. They offer local warehousing in Norway, which can reduce lead times. Quotes can be requested for single units or bulk orders, and they provide support for BOM validation and project-specific configurations . 3. RS Online Norway RS Online supplies a variety of enclosures and server racks, including IP65-rated options for indoor and outdoor use. Their products include locks, mounting hardware, and protective features to safeguard against dust and moisture. Pricing and availability can be checked online, and they offer next-day delivery for many items . 4. Mouser Norway Mouser Electronics offers racks and cabinets with detailed datasheets and unit pricing. Their online platform allows filtering by IP rating, size, and quantity, making it easy to obtain a quote for IP65 network racks. They provide inventory and shipping options within Norway .

Pricing Considerations

- o Rack size: Quarter, half, or full racks affect cost.
- o Configuration: Integrated PDUs, cooling, and cable management increase price.
- o Quantity: Bulk orders may qualify for discounts.
- o Delivery: Local stock in Norway can reduce shipping costs and lead time. For an accurate quote, it is recommended to contact the suppliers directly with your required specifications, including IP rating, dimensions, and any additional features. This ensures the quote reflects current stock, delivery options, and any applicable taxes or fees.
