

Price of 400 Cable Tray

Article Overview

The price of a 400mm cable tray varies by material and type, typically ranging from \$50 to \$200 per 2.4-3 meter length.

Pricing Overview

- o Hot-dip galvanized steel ladder trays: Standard 2.4-meter lengths are commonly priced around \$50-\$120 per tray, depending on supplier and thickness, suitable for heavy-duty industrial and outdoor applications .
- o Stainless steel trays: More corrosion-resistant and ideal for coastal or chemical environments, these trays are generally more expensive, often \$150-\$200 per 2-3 meter length .
- o Aluminum trays: Lightweight and easy to install, aluminum 400mm trays are typically priced \$80-\$150 per tray, depending on supplier and finish .
- o FRP (Fiberglass Reinforced Plastic) trays: Non-metallic and chemical-resistant, FRP trays are used in chemical processing or water treatment industries, with prices usually \$100-\$180 per 2-3 meter tray .
- o Under-desk 400mm wire basket trays: Designed for office or home setups, these smaller-scale trays cost around \$50-\$80 per unit .

Factors Affecting Price

- o Material: Steel, stainless steel, aluminum, and FRP have different costs and corrosion resistance.
- o Length: Standard lengths are 2.4-3 meters; longer or custom lengths increase cost.
- o Load capacity: Heavy-duty trays for industrial use are more expensive than light-duty office trays.
- o Finish and coating: Galvanized or powder-coated trays cost more than plain steel.
- o Supplier and location: Prices vary by region, shipping, and bulk order discounts.

Additional Considerations

- o Cable trays are often purchased with fittings and accessories, which are priced per piece and can add to the total cost .
- o For bulk or trade orders, contacting suppliers directly can provide discounts and more accurate pricing .
- o Material selection should consider environmental conditions, such as moisture, chemical exposure, or coastal salt air, to ensure durability and long-term performance . By considering these factors, you can select a 400mm cable tray that balances cost, durability, and application requirements.
