

Article Overview

Antioxidant cable trays typically range from \$20 to \$150 per meter or unit depending on material, size, and supplier.

Price Overview

The cost of antioxidant cable trays varies widely based on material, coating, size, and certification. Common materials include stainless steel, galvanized steel, and powder-coated steel, each offering different levels of corrosion resistance and fire safety . For example:

- o Galvanized steel trays with antioxidant powder coating are generally priced around \$20-\$50 per meter for standard sizes .
- o Stainless steel trays (304 or 316) with antioxidant properties can cost \$80-\$150 per meter, reflecting higher corrosion resistance and durability .
- o PVC or halogen-free plastic trays with antioxidant additives are usually \$25-\$60 per meter, suitable for indoor or less demanding environments .

Factors Affecting Price

- o Tray Type: Ladder, wire mesh, basket, or single rail designs influence cost due to material usage and manufacturing complexity .
- o Length and Width: Longer or wider trays require more material, increasing the price.
- o Certifications: ISO, UL, CE, and DIN EN 61537 compliance can raise costs but ensure quality and safety .
- o Bulk Orders: Purchasing in bulk from suppliers like Alibaba or Go4WorldBusiness can reduce per-unit costs, especially for Moroccan or Chinese manufacturers .

Where to Source

- o Alibaba: Offers a wide range of antioxidant cable trays with bulk pricing options and international shipping .
- o Go4WorldBusiness: Connects buyers with verified suppliers for Moroccan antioxidant cable trays, ideal for wholesale purchases .
- o Amazon and RS Online: Provide smaller quantities or standard sizes for immediate purchase, though prices may be higher per unit .
- o Specialized distributors: Websites like Ekabel24 and RS PRO offer certified trays with detailed specifications for industrial projects . For the most accurate pricing, it is recommended to request a quote from suppliers based on your required tray type, material, and quantity.
