

Recommended manufacturers of professional electrical distribution boxes in Libya

Article Overview

HEISCO, AHK, Al-Hadatha, and AAM are among the leading companies in Libya for high-quality professional electrical distribution boxes.

HEISCO (Al Hussain for Electrical Industry and Services)

HEISCO is recognized as a top manufacturer of low and medium voltage electrical distribution panels in Libya. They produce panels for industrial, oil and gas, and residential applications, including Package Substation Units (11/0.4 kV), Ring Main Units (RMU), and silent generators. HEISCO uses ALUZINC steel sheets and modern CNC machinery to ensure high-quality, rust-resistant enclosures. Their panels comply with IEC standards, GECOL specifications, and Schneider Electric requirements, and they provide full technical support and spare parts for maintenance .

AHK Company (Al-Shafaq)

AHK specializes in low and medium voltage industrial electrical materials and manufactures metal distribution boxes, substation units, and ring distribution units. They operate a factory equipped with modern machinery to produce panels according to international specifications and the standards of the General Electricity Company of Libya. AHK also partners with Chint Electric to supply certified components and offers customized solutions for factories, infrastructure projects, and residential buildings .

Al-Hadatha Company

Al-Hadatha imports and supplies high-quality electrical distribution panels, breakers, switches, and accessories from certified global manufacturers. They focus on residential, commercial, and industrial projects, providing original products with international standards and warranties. Al-Hadatha also offers technical consulting, project-based solutions, and coordinated delivery across Libya, making them a reliable supplier for contractors and consultants .

AAM Co., Ltd (Almanara Almutakadima)

AAM is a major importer and supplier of low-voltage distribution boxes and other electrical materials in Libya. They provide customized panels and assembly services with international specifications, leveraging their partnership with Chint Electric. AAM emphasizes after-sales support, maintenance, and engineering services, ensuring reliable performance for industrial and residential applications .

Recommended manufacturers of professional electrical distribution boxes in Libya

Summary Recommendation

For industrial and high-capacity applications, HEISCO and AHK are highly recommended due to their in-country manufacturing capabilities, compliance with international standards, and ability to produce customized panels. For residential or commercial projects, Al-Hadatha and AAM offer reliable imported solutions with strong technical support and warranty coverage. Choosing the best company depends on your project scale, voltage requirements, and need for local manufacturing versus imported components.
