

Recommended vendors for Angolan electrical distribution boxes

Article Overview

Hydro'Mont and Equipafro Angola are leading companies in Angola specializing in electrical distribution boxes and related systems.

Hydro'Mont

Hydro'Mont focuses on medium and low voltage electrical distribution systems for industrial, commercial, and residential applications across Angola. They provide engineering, procurement, and construction (EPC) services, as well as maintenance for electrical infrastructure and industrial equipment. Their expertise includes designing and implementing distribution systems for rural electrification projects, ensuring safety, efficiency, and reliability in power delivery .

Equipafro Angola

Equipafro Angola offers a wide range of electrical equipment for low and medium voltage, including distribution boxes, switchgear, transformers, cables, and fuses. They also supply public lighting solutions and have over 20 years of experience exporting electrical materials across Africa. Their products are designed to support efficient and safe energy production, transport, and distribution .

Electro Panga

Electro Panga is one of the largest suppliers of electrical materials in Angola, providing switchboards, cables, automation systems, and accessories. They serve industrial, commercial, and residential sectors, with a physical store in Luanda and nationwide delivery. Their product range includes low-voltage distribution boxes and related components .

KIPOR Power Angola

KIPOR Power Angola specializes in electrical materials sales, installations, and grid connection approvals, offering professional services for reliable power infrastructure. While their focus is broader, they provide solutions relevant to electrical distribution systems .

Summary

For companies specializing in Angolan electrical distribution boxes, Hydro'Mont and Equipafro Angola are the most prominent, offering comprehensive solutions from design and supply to installation and maintenance. Electro Panga and KIPOR Power Angola also provide relevant products and services, making them suitable
