

Article Overview

Outdoor micro-module fiber optic cables in Singapore are available from suppliers like Norden and OFC, designed for high-density, weather-resistant applications and compliant with international export standards.

Product Overview

Norden Micro-Module Duct Cables are constructed with TPE loose tube material and Kevlar yarn strength members, providing kink resistance, crush protection, and easy mid-span access without tools. They are ultra-compact, flexible, and scalable, suitable for telecommunications networks, data centers, and high-fiber-count installations. The cables are available with PVC or FR LSZH outer sheaths for indoor/outdoor applications, ensuring durability in various environmental conditions . OFC Outdoor Micro-Module Cables (GJWF type) feature LSZH miniature cluster tubes spirally twisted around a non-metallic aramid tensile element, wrapped with water-blocking tape and polyethylene outer sheath. This design provides excellent tensile resistance, weather and friction resistance, and easy branching and peeling. The cables meet YD/T1258.4-2005 and IEC 60794 standards, ensuring reliability for outdoor deployment .

Export and Packaging

For international shipping, OFC packages cables with fumigated Canadian wood crates, meeting customs requirements for the US, Canada, EU, Japan, and Australia. Official fumigation certificates are issued to prevent ecological damage from pests or diseases, ensuring smooth export compliance .

Key Features

- o Non-metallic construction for lightning protection and soft curling effect
- o High-density, small outer diameter for easier installation
- o Thin-walled micro-tube units for easy branching
- o Symmetrical ripcords to improve construction efficiency
- o Weather and friction resistance for outdoor durability
- o Flexible lengths (typically 2000m, customizable per customer request)

Export Compliance

When exporting from Singapore, it is important to verify HS codes and customs requirements using Singapore Customs tools to ensure proper classification and compliance with local and international regulations .

Suppliers

Singapore Export Micro-Module Outdoor Type

- o Norden Communication: Leading supplier of micro-module duct fiber optic cables in Singapore
- o OFC / Hewlett Packard Enterprise: Offers outdoor micro-module cables with international export-ready packaging
- o Alibaba and other trade platforms: Provide access to multiple manufacturers and exporters for bulk orders

These cables are ideal for high-performance outdoor fiber optic networks, offering durability, ease of installation, and compliance with international export standards.
