

Article Overview

OPTOKON Elektronik and SAMM Teknoloji are leading Turkish companies capable of providing fiber optic KVM and related electronic solutions.

OPTOKON Elektronik

OPTOKON Elektronik Ltd., established in 2019, is a Turkish subsidiary of the OPTOKON Group, specializing in fiber optic connectivity solutions and advanced electronic assemblies . The company serves operators, enterprises, and defense organizations, offering products that support both existing and next-generation optical networks. OPTOKON Elektronik is National Security Authority certified and a member of the Defence and Security Industry Association, making it a reliable partner for high-security and mission-critical applications. Their expertise in fiber optic components and electronic assemblies positions them as a potential provider for KVM seating systems that require optical connectivity.

SAMM Teknoloji

Founded in 2006, SAMM Teknoloji manufactures high-quality fiber optic cable assemblies, data center panels, cabling systems, and termination units . With two factories and over 200 employees, SAMM provides solutions for indoor and outdoor networks, including defense and telecommunication applications. Their experience in fiber optic infrastructure and electronic assembly makes them a strong candidate for supplying KVM seating systems that rely on fiber optic technology.

Other Notable Turkish Fiber Optic Companies

- o OFT - Optic Fiber Telecommunication: Offers a wide range of fiber optic products, including patch cords, adapters, media converters, and cabinets . They provide engineering support and customized solutions, which could be adapted for KVM seating systems.
- o TTAF: Specializes in advanced technology connectors, cable grouping, and professional network solutions . Their R&D and production capabilities support customized fiber optic solutions for specialized applications.

Summary

For fiber optic KVM seating systems in Turkey, OPTOKON Elektronik and SAMM Teknoloji are the most relevant manufacturers due to their expertise in fiber optic assemblies, electronic systems, and defense-grade certifications. Companies like OFT and TTAF also offer complementary fiber optic solutions and could provide customized support for KVM integration. These manufacturers combine local production capabilities with international standards, ensuring high-quality and reliable solutions for both commercial and defense

applications.
